PROFILE

I am a proactive IT student with a keen interest in the technology that shapes our daily lives and how it can be leveraged to drive innovation. My passion extends to understanding the intricacies of technology, including the fascinating world of hacking. As an adaptable team player equipped with skills in backend, frontend development and database management, I thrive in fast-paced, deadline-driven environment and I am ready to apply both my academic and industry knowledge to tackle real-world challenges. I remain committed to continuous learning and personal growth, always seeking to deepen my understanding of technology and its impact on society.
